Celebrate Lakeville's 90th Birthday

By Nathan

It's Lakeville's 90th birthday! Wow, this school is old and fun! This means it is Lakeville's 90th year open. The Lakeville birthday celebration will take place in Lakeville Elementary School. First we celebrated it by having a t-shirt contest. Whoever drew the best t-shirt picture got to have their drawing on a lot of Lakeville t-shirts. All the t-shirt designs are hung in the cafeteria. In the cafeteria, there is also a giant "90" that the student council helped make. Everyone will wear their Lakeville 90th birthday t-shirt designs on May 15th, the day the whole school celebrates Lakeville's birthday. It is fun celebrating Lakeville's 90th birthday.

Welcome to our Blog!

By Catrina and Kian

Do you want to share your ideas about the books you read? Then you should have a blog for your class! Mrs. Gordon's class is working on a class blog. We work on our blog at school and at our homes. Our class blog is only for our second grade class. Why do we do it? It helps us remember more about our books. We get to learn more about what books mean, and we get to share our opinions with each other even when we're not in school. To go on our blog, we go on a computer, then find our passwords, and then we read what our teacher and classmates write. We are able to think of something to say back. We like blogging because it helps us to type better and it helps us to learn more about books from each other too.
