

### Tra-la-la-la-la!

By Kyle and Dave

“Tra-la-la-la-la!” That was the sound of the birds singing. Do you know what sounds even better? The Lakeville second grade chorus concert! The entire second grade sang songs on March 8th, at 7:00 p.m. The chorus concert was a performance where the whole second grade sang. This event took place in the auditorium so that the second grade could have fun and have their parents see how well they sing. The second grade got ready for the concert by first practicing in the music room with their music teachers, Mr. Pietromonaco or Ms. Tomlet. Then, in the months before the show, the whole grade went to the multi-purpose room and practiced together with Ms. Tomlet and Mr. Pietromonaco. A few weeks before the show, the second grade practiced in the auditorium. The music teachers and the principal directed the show. After all the fuss and practices, the show turned out to be very good.

### What’s the Great Mail Race?

By Lindsay and Gloria

What could be worse than if you did not have letters to send to a friend far away? Nothing! The Great Mail Race is here to help. Mrs. Gordon’s second grade class joined The Great Mail Race in the second half of March, 2018, and invited other elementary schools in all 50 states to join them. We worked in our classroom and in the computer lab. We did it because we wanted to send letters to all 50 states and learn about all of the states and cities and what kids do there. This is how we did this: we first picked out the states we would like to write letters to, then we wrote to a school in each state, next, we put our letters in envelopes and wrote the addresses on each envelope. Finally, our teacher sent them to the schools in each state. If you do not do the Great Mail Race you may be sad, so we hope you also get invited to The Great Mail Race!
